TESTED TO OVER 500,000 ON/OFF CYCLES

Each Rada Safetherm unit is rigorously tested for thermostatic performance and consistency before leaving the factory. The tough cartridge stops used in its design have been tested over a half of a million cycles, ensuring unsurpassed levels of reliability even in the most demanding environments. Like every Rada product, it is precision manufactured to some of the most uncompromising quality standards in the industry.

insutech⁺ thermal protection

Basin mounted option

RADA SAFETHERM

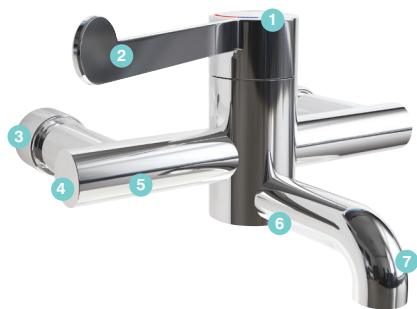

Thermostatic mixer tap from Rada designed to exceed both NHS Best Practice Guide: 0.6 (supersedes HTM64) and safety guidelines for mixer valves in today's healthcare environments. Innovative design to minimise water retention, long lever sequential control and easy access for servicing.

PRODUCT CODES

RADA SAFETHERM WALL MOUNT **1.1704.001**

RADA SAFETHERM BASIN MOUNT **1.1704.002**

RADA SAFETHERM OVERVIEW

- 1. EASY TO READ GRAPHICS** - Bold and clear, the graphics feature easy to understand 'off', 'cold' and 'hot' positions
- 2. EASY & ACCURATE OPERATION** - Operates 120° for control and adjustment
- 3. EASY MAINTENANCE** - Integral isolator valves for easy access
- 4. CONVENIENT ACCESS** - For quick filter cleaning or replacement
- 5. SAFE-TO-TOUCH** - A new insulation solution insutech⁺ limiting hot water inlet surfaces to a safe temperature
- 6. CARTRIDGE DRAIN DOWN** - The configuration of the thermostatic cartridge and orientation of the spout eliminates space for water to be retained, minimising standing water to serve as a breeding ground for bacteria
- 7. ROBUST, QUALITY CHROME FINISH** - Resistant to pitting and easier to clean for increased hygiene and reduced potential for surface contamination

SPARES

For all your spares requirements for Rada healthcare products come to Faucets.

Key Features and Benefits

- **One piece thermostatic cartridge.** This blends incoming hot and cold water at point of delivery, providing the user with safe temperature water, reducing unnecessary deadlegs and meeting mandatory standards
- **Safe-to-touch.** Features Rada insutech⁺ technology, designed to reduce temperature of the outer surface to a safe level during and after use
- **Smooth chrome surface.** Easy to clean to support excellent levels of hygiene
- **Simple internal design.** Minimises internal 'pooling' in the body and spout, to contribute to improved bacterial control
- **Sequential long lever control.** Simple to use under hospital protocols whilst delivering a full range of water temperatures in a controlled manner
- **100% tested.** Every Rada Safetherm is tested on thermostatic performance before leaving the factory, providing reassurance to specifiers
- **Accessibility and servicing.** Supports efficient routine maintenance
