THE PERRIN & ROWE STORY

Established in 1978 by Bob Perrin and Greg Rowe, the company started life in a large barn in Bob's back garden in East London, engineering and manufacturing components for other brassware companies.

Early on in the 1980s, Perrin & Rowe obtained a reputation as excellent problem solvers and accomplished engineers and we expanded and acquired our first factory in Rainham, Essex. Now the development of our own products, not just components for other companies, began.

The world's first tap containing Triflow Technology was invented and patented in 1991 – a three-way tap that dispensed hot, cold and filtered water. Quickly becoming an established market leader, within a few years it was selling around the globe.

WHERE IT ALL BEGAN - BOB PERRIN'S FIRST WORKSHOP IN EAST LONDON

BOB PERRIN WAS A MASTER DRAFTSMAN USING THE LATEST AUTOCAD COMPUTER SYSTEMS

SCREWCUTTING WASHER PLATES FOR A CUSTOMER

MOLTEN BRASS IN THE FURNACE

A WORLD FIRST - BRANDED 'ATRIFLO'. THIS WAS THE GROUNDBREAKING CONCEPT THAT HIT THE MARKET IN 1991

PERRIN & ROWE PRODUCTS ARE FULLY DESIGNED AND MANUFACTURED IN THE UK

Having established a reputation for excellence and quality, Bob Perrin and Greg Rowe were now keen to expand their own brand and in 1993, the first Perrin & Rowe kitchen products started to roll out of our factory.

A natural progression of the success achieved within the kitchen industry led us to develop and produce the first range of bathroom brassware in 1995. It was clear that the UK market had been waiting for products such as ours, with timeless, beautifully proportioned designs, considered function and lifelong quality. It also became obvious that other markets desired these qualities and an exclusive distribution deal with Rohl in the US quickly brought Perrin & Rowe fittings to an overseas market craving English tradition and excellence. Australia and New Zealand followed and all these relationships are still going strong today.

THE 55,000 SQFT RAINHAM FACILITY

ADVANCED CNC MACHINERY - JUST ONE PART OF THE MASSIVE 127,000 SQFT CURRENTLY IN OPERATION BY PERRIN & ROWE

THE DESIGN PROCESS - PRODUCTS ARE PROTOTYPED BEFORE PRODUCTION BEGINS

By the millennium, it was evident that Perrin & Rowe had outgrown their current factory and we moved to a huge 55,000 sqft facility in 2003, enabling us continued growth for years to come. In a few short years, the Company also acquired premises in the midlands to secure the casting, polishing and plating processes, and also a production facility to allow the launch of our own sanitaryware range.

Today, Perrin & Rowe is one of the largest manufacturers of authentic kitchen and bathroom products in Great Britain, employing over 140 people. We have redefined the market needs for classically British Decorative brassware and managed to keep skilled manufacturing jobs here in the UK.

With factories in Tamworth, Rainham and Wolverhampton, all Perrin & Rowe products are manufactured from raw materials by our skilled team of engineers. With an ongoing commitment to preserving skillsets, we offer a number of apprenticeship schemes with an emphasis on teaching participants the engineering skills required to manufacture the high quality products offered by Perrin & Rowe.

Environmentally aware - In the last few years we have made significant reductions in our power and water consumption, as well as recycling brass waste, machine oils and packaging.

A FRESH CASTING IN THE HANDS OF A TRUE CRAFTSMAN

THE FUSION OF FUNCTION AND BEAUTY; DURABILITY AND DESIRABILITY

The strength of the Perrin & Rowe brand is built upon a clear understanding of the requirements in the luxury sector: product reliability, durability, quality and real value for money. Renowned for our unrivalled quality and an exacting attention to detail, our wide and varied product portfolio includes kitchen taps, bath and basin brassware, bathroom accessories and bathroom chinaware, all designed and manufactured in our own UK factories.

Perrin & Rowe products are outstanding examples of design excellence combined with cutting edge precision engineering. Our products are not mass produced; instead we concentrate on perfecting each individual product by controlling each process to our own exacting standards.

Our reward – Perrin & Rowe products have consistently been specified and installed in the most stunning and luxurious hotels, resorts, spas and private residences around the world.

PERRIN & ROWE BATHROOM PRODUCTS WERE SPECIFIED FOR THE SOFITEL HOTEL, ST JAMES, LONDON

FUNCTIONAL PROTOTYPES ARE CRAFTED BY HAND IN THE TOOL ROOM

PRODUCTS ARE HAND ASSEMBLED AND EACH ONE IS INDIVIDUALLY TESTED TO EXCEED INDUSTRY STANDARDS

THE PERRIN & ROWE PROMISE

All products are manufactured in the UK from the highest quality raw materials available.

Inspired by innovation and driven by engineering excellence.

Manufactured employing the latest available technology.

Plated to a thickness that exceeds the industry standards. This additional plating will ensure a deep, protective coating that is resistant to wear and tear as well as pleasing to the eye.

Assembled by hand and individually water tested to ensure peace of mind.

Made to include bearing rings and engineering 'O' seals on handles and spouts to ensure maximum durability. This feature prolongs the service life of the product and gives Perrin & Rowe products a stable 'wobble-free feel'.

Containing ceramic disc valves supplied by a leading ceramic valve manufacturer, the valves are repeatedly tested up to 500,000 life cycles, (turned on and off with pressurised water), designed to simulate up to 25 years domestic use.

Specifically manufactured for each market. No additional adapters or converters are required for installation.

BATH SHOWER

Slender and graceful, the Hoxton bath shower mixer is the ultimate finishing touch to a statement freestanding bath. Thanks to a thermostatic shower valve, users can be assured of a consistent water temperature even if there is a sudden change in water pressure.

BATH

Drawing a long, hot bath is one of life's simple pleasures. With Perrin & Rowe bath taps you can be sure you'll be soaking for longer than you're standing around waiting for your tub to fill. Generous spouts and three-quarter inch wide inlets mean that your bath will be ready in no time, so all you have to do is lie back and relax.

BASIN/BIDET

To us, details matter; the materials, the care and the precision... that's what the Perrin & Rowe signature is about. Our 'hot' and 'cold' indexes are the perfect example. Made from fine porcelain – smooth and perfectly domed – they're a small, but important part of the average thirty components that are assembled by hand to make each of our taps.

SHOWER

Perrin & Rowe showers are thermostatically controlled by a highly accurate wax cartridge. A pre-set, maximum temperature of 38°C minimises the risk of a shower being too hot, or worse, scalding. In the unlikely event of your hot or cold water supplies failing, a shut off device will automatically activate. Shower valves are available as concealed or exposed designs; choose an exposed valve for maximum impact, for smaller showering areas, opt for a concealed valve with an octagonal plate, where the valve's pipework is hidden in your bathroom wall.

STANDARD

Perrin & Rowe brassware can be customised to suit your own personal style with eight, high quality finishes that complement a range of kitchen designs, appliances, cabinetry and fittings.

Chrome is a brilliant, silver finish with a hint of blue

Nickel is a shiny finish with a golden glow

Pewter is a brushed Nickel finish with a blue-grey, matte appearance

CARE & MAINTENANCE GUIDE.

A guide to caring for each of the different finishes is available on our website.

CHROME

NICKEL

PEWTER

SPECIAL

Perrin & Rowe Special Finishes are a range of luxurious, warm metallic hues to bring a touch of style and unique character to your bathroom.

English bronze Metallic brown finish with subtle notes of orange and copper.

Gold Plated with 24 Carat gold pure yellow in colour, with a natural glow and high shine.

LIVING FINISHES

Polished and Satin Brass are described as 'Living Finishes' which means they develop a unique patina over time as they react with their environment.

Polished brass A warm finish with coppery undertones.

Satin brass A matte finish with strong undertones of yellow ochre.

ORDERING INFORMATION

The Traditional and Georgian Collections are available to order in the full range of Standard and Special Finishes. The Deco and Contemporary Collections are available in the full range of Standard Finishes and selected products can also be ordered in a Special Finish on request. Please enquire for more information.

INSPIRATION

Through exclusive relationships with the best architects and designers globally, the Perrin & Rowe bathroom collection has and continues to be specified in the most luxurious hotels, resorts and residences around the world.

 @perrinandrowe

 Perrin & Rowe

DISCOVER

The Perrin & Rowe Kitchen Collection offers a multitude of design and styling options. Choose a sleek Orbiq, Oberon or Io from the contemporary range; opt for the timeless form of a Phoenician, Minoan or Ionian from the Traditional Collection or go for rustic style with a Picardie, Provence or Alsace from the Country Collection.

Enhance your tap with a stand-alone, patented rinse, then customise your tap to suit. An alternative spout; crosshead handles rather than levers? Wall-mounted rather than surface-mounted fixings? Handles to match your work surface? No problem – it's your tap and most importantly, it's your choice.

Manufactured exclusively in our own factories in the UK and assembled by hand, all of our kitchen taps feature ceramic disc valves and are individually tested.

For your reassurance, every piece of Perrin & Rowe brassware is engineered from approved materials to exacting standards and hand-assembled within an ISO 9001:2008 accredited, quality assured environment. Recognised all over the world for its stringent, detailed standards and attention to processes ISO 9001:2008 approval is a true mark of international quality.

Perrin & Rowe believes in upholding the international standards required wherever its products are sold. Our international approvals include WRAS, KIWA UK, UPC, NSF and the Australian Watermark Standard.

All of our products manufactured for the UK market are designed to comply with the requirements of the Water Supply (Water Fittings) Regulations 1999 for England and Wales, the Water Byelaws 2000, Scotland and the Water Regulations Northern Ireland.

Many have been independently tested and verified by either Kiwa UK or WRAS, to check a specific product, or for all current listed products please contact us.

Should you have any concerns or queries about your Perrin & Rowe brassware, we will be only too pleased to help. We operate a dedicated aftersales and technical advisory service, so if you have a question, just ask us.

TCL Manufacturing Ltd. operates a programme of continuous product design, development and improvement. As such, TCL Manufacturing Ltd. reserves the right to change and update its products without notice. Whilst we have made every attempt throughout this brochure to use imagery that is faithful to product form and finish, variations resulting from photographic lighting, print and reproduction cannot be avoided.
