# THE PERRIN & ROWE STORY

Perrin & Rowe products are fully designed and manufactured in the UK

Established in 1978 by Bob Perrin and Greg Rowe, the company started life in a large barn in Bob's back garden in East London, manufacturing components for other brassware companies.

Early on in the 1980s, Perrin & Rowe obtained a reputation as excellent problem solvers and accomplished engineers and we expanded and acquired our first factory in Rainham, Essex.

Now we could really start to develop our own products, not just components for other companies.

The world's first tap containing Triflow Technology was invented and patented in 1991. A three-way tap that dispensed hot, cold and filtered water. Quickly becoming an established market leader and within a few years was selling around the globe.

A FRESH CASTING IN THE HANDS OF A TRUE CRAFTSMAN

Having established a reputation for excellence and quality, Bob Perrin and Greg Rowe were now keen to expand their own brand and in 1993, the first Perrin & Rowe kitchen products started to roll out of the factory.

A natural progression of the success achieved within the kitchen industry led us to develop and produce the first range of bathroom brassware in 1995. It was clear that the UK market had been waiting for products such as ours, with timeless, beautifully proportioned designs, considered function and lifelong quality

all built in. It also became obvious that other markets desired these qualities and an exclusive distribution deal with Rohl in the US quickly brought Perrin & Rowe fittings to an overseas market craving English tradition and excellence. Australia and New Zealand followed and all these relationships are still going strong today. By the millennium, it was evident that Perrin & Rowe had outgrown their current factory and we moved to a huge 55,000 sqft facility in 2003, enabling us continued growth for years to come. In a few short years, the Company also

secure the casting, polishing and plating processes, and also a production facility to allow the launch of our own Sanitary ware range.

Today, Perrin & Rowe is one of the largest manufacturers of authentic kitchen and bathroom products in Great Britain, employing over 140 people. We have redefined the market needs for classically British decorative brassware and managed to keep skilled manufacturing jobs here in the UK.

WHERE IT ALL BEGAN - BOB PERRIN'S FIRST WORKSHOP IN EAST LONDON

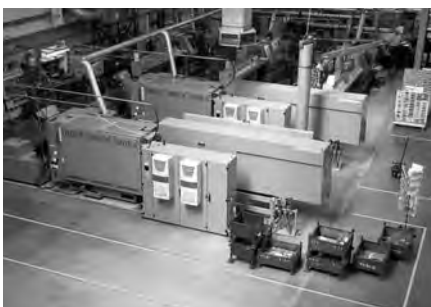

BOB PERRIN WAS A MASTER DRAFTSMAN USING THE LATEST AUTOCAD COMPUTER SYSTEMS

SCREWCUTTING WASHER PLATES FOR A CUSTOMER

THE 55,000 SQFT RAINHAM FACILITY

ADVANCED CNC MACHINERY - JUST ONE PART OF THE MASSIVE 127,000 SQFT CURRENTLY IN OPERATION BY PERRIN & ROWE

With factories in Tamworth, Rainham and Wolverhampton, all Perrin & Rowe products are manufactured from raw materials by our skilled team of engineers.

With an ongoing commitment to preserving skillsets, we offer a number of apprenticeship schemes with an emphasis on teaching participants the engineering skills required to manufacture the high quality products offered by Perrin & Rowe.

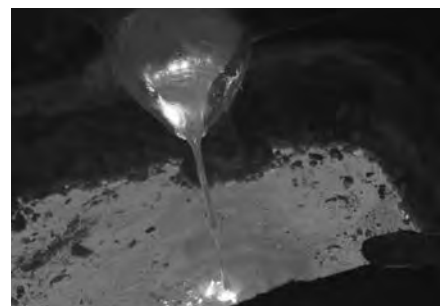

Environmentally aware - In the last three years we have made significant reductions in our power and water consumption, as well as recycling brass waste, machine oils and packaging.

A WORLD FIRST - BRANDED 'ATRIFLO', THIS WAS THE GROUNDBREAKING CONCEPT THAT HIT THE MARKET IN 1991

THE DESIGN PROCESS - PRODUCTS ARE PROTOTYPED BEFORE PRODUCTION BEGINS

# THE FUSION OF FUNCTION AND BEAUTY; DURABILITY AND DESIRABILITY.

The strength of the Perrin & Rowe brand is built upon a clear understanding of the requirements in the luxury sector: product reliability, durability, quality and real value for money. Renowned for our unrivalled quality and an exacting attention to detail, our wide and varied product portfolio includes kitchen taps, bath and basin brassware, bathroom accessories and bathroom chinaware, all designed and manufactured in our own UK factories.

Perrin & Rowe products are outstanding examples of design excellence combined with cutting edge precision engineering. Our products are not mass produced; instead we concentrate on perfecting each individual product by controlling each process to our own exacting standards.

Our reward – Perrin & Rowe products have consistently been specified and installed in the most stunning and luxurious hotels, resorts, spas and private residences around the world.

# THE PERRIN & ROWE PROMISE

- All products are manufactured in the UK from the highest quality raw materials available.
- Inspired by innovation and driven by engineering excellence.
- Manufactured employing the latest available technology.
- Assembled by hand and individually water tested to ensure peace of mind. Made to include bearing rings and engineering 'O' seals on handles and spouts to ensure maximum durability. This feature prolongs the service life of the product and gives Perrin & Rowe products a stable 'wobble-free feel'.
- Containing ceramic disc valves supplied by a leading ceramic valve manufacturer, the valves are repeatedly tested up to 500,000 life cycles, (turned on and off with pressurised water), designed to simulate up to 25 years domestic use.
- Specifically manufactured for each market. No additional adapters or converters are required for installation.
- Plated to a thickness that exceeds the industry standards. This additional plating will ensure a deep, protective coating that is resistant to wear and tear as well as pleasing to the eye.

THE INSTANT HOT COLLECTION

PERRIN  ROWE MAYFAIR • LONDON

## BEST IN THE BUSINESS

- Innovative 3-in-1 instant hot mixer, perfect for hot drinks, cooking, food prep and cleaning
- A wide range of standalone dispensers to match all of Perrin & Rowe's current sink mixer styles
- Available in all the Perrin & Rowe standard and special finishes
- Compact, high quality heater tank with state-of-the-art digital touch screen display
- Quick and simple installation using a standard 13amp socket
- 1.5KW element
- 2.4 Litre capacity tank
- Vented system
- High quality filtration system
- Backed by the Perrin & Rowe promise and competitive guarantees

HOT WATER TANK AND CARTRIDGE IS COMPACT, FITTING NEATLY UNDERNEATH THE SINK IS ACCESSIBLE FOR EASY SERVICING

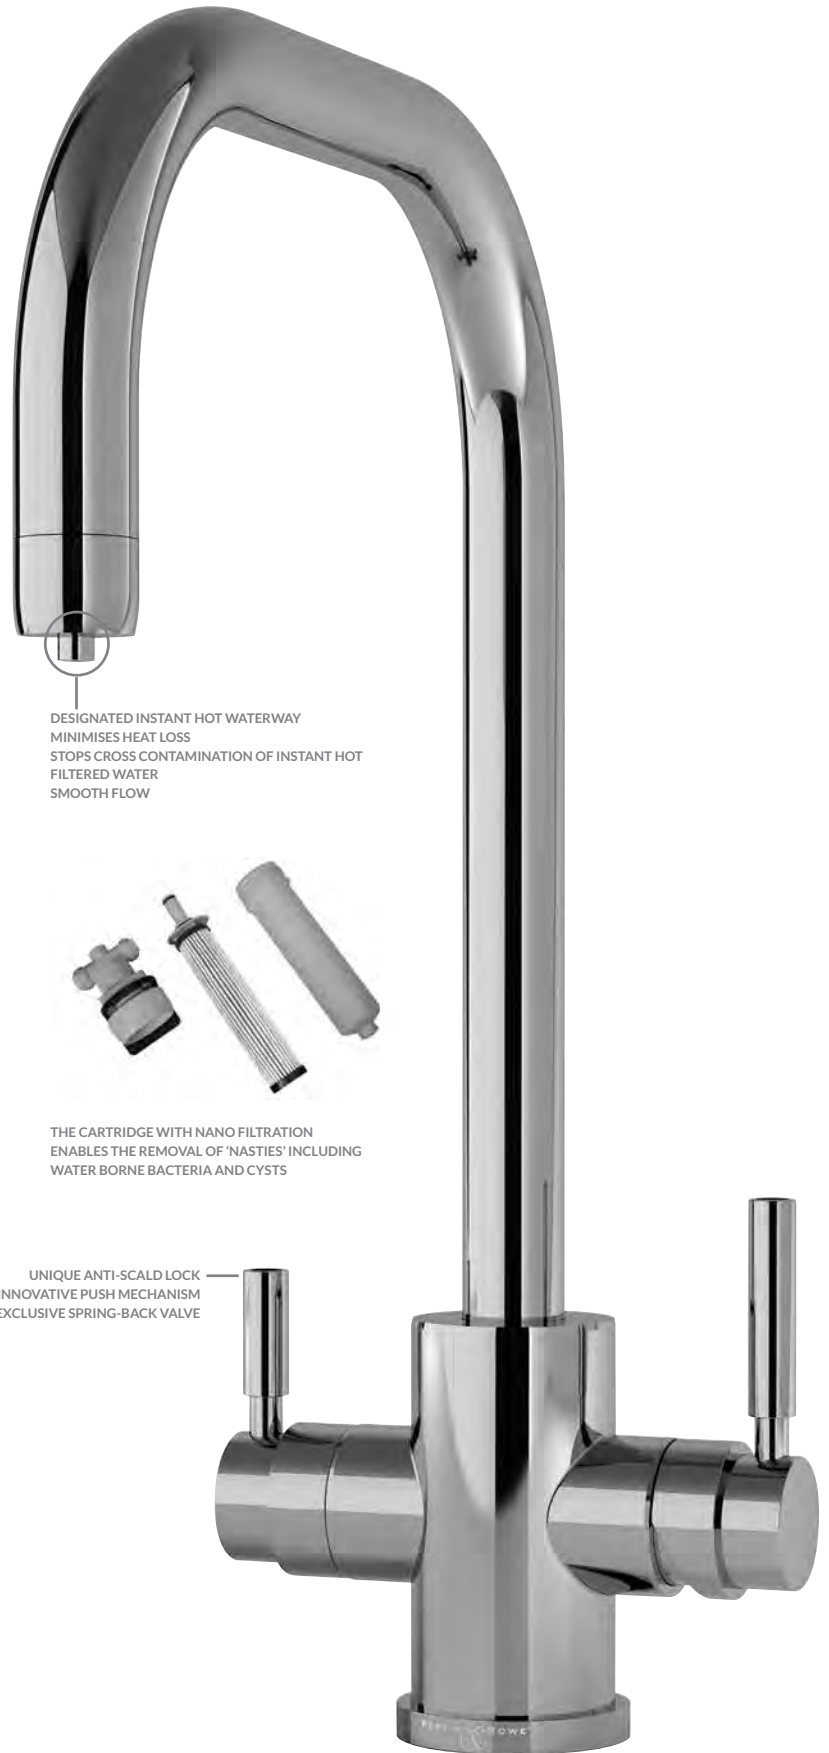

UNIQUE FEATURES

DIGITAL TOUCH SCREEN DISPLAY USES LATEST LED TECHNOLOGY, ENABLING THE USER TO SEE INSTANTLY THE STATUS OF THE UNIT

- Unique anti-scald locking mechanism on all instant hot models
- Operates from as low as 1.5 bar
- Multiple pre-set temperatures ranging from 75°C to 98°C
- State-of-the-art digital touch screen display
- Digital temperature control accurate to 0.5°C
- Rapid reheat with zero run off and spit free
- Water saving, time saving and energy efficient
- Hi-flow
- Easy to install and use
- UK manufacturer
- Available in a range of styles and finishes

DESIGNATED INSTANT HOT WATERWAY  
MINIMISES HEAT LOSS  
STOPS CROSS CONTAMINATION OF INSTANT HOT FILTERED WATER  
SMOOTH FLOW

THE CARTRIDGE WITH NANO FILTRATION  
ENABLES THE REMOVAL OF 'NASTIES' INCLUDING  
WATER BORNE BACTERIA AND CYSTS

UNIQUE ANTI-SCALD LOCK  
NEW INNOVATIVE PUSH MECHANISM  
EXCLUSIVE SPRING-BACK VALVE

- Compact design
- Non-pressurised filter housing
- Easy to install with moveable fixing bracket
- New design filter housing connection for quick and easy filter replacement
- High quality cartridge with nano filtration technology removes debris, water borne cysts, bacteria, chlorine, chemicals, bad taste and odour
- Lime scale reduction to increase product lifespan
- 6 month filter life
- Complimentary reminder service for replacement cartridges

THE **FILTRATION** COLLECTION

## ALL SYSTEMS FLOW

The technology behind the Perrin & Rowe filtration collection derives from the world's first three-way tap, delivering not only hot and cold water but also filtered water through a dedicated waterway, a system that ensures the filtered water is not cross-contaminated by the standard mains hot and cold water.

It incorporates the highest standard Swiss-made ceramic filter which significantly reduces harmful substances such as chemical and biological contaminants as well as the most heavy metals and particles as small as 0.2 microns, while leaving beneficial minerals such as fluoride, magnesium and calcium untouched.

# FOUR STAGE FILTRATION

## COMPOSITION

The Ceramic filter incorporated in the Filtration system is the highest performing filters available in the market today and is made by Swiss manufacturer Katadyn. The cartridge is made from sintered diatomaceous earth and has a micro porous structure impregnated with silver which is known for its bactericidal action. The porous structure is able to eliminate particles down to 0.2 micron (0.0002mm) in size. One pound of carbon contains a surface area of roughly 125 acres and can absorb literally thousands of different chemicals.

Activated carbon is carbon which has a slight electro-positive charge added to it, making it even more effective in eliminating chemicals and impurities. As the water passes over the positively charged carbon surface, the negative ions of the contaminants are drawn to the surface of the carbon granules.

## UNIQUE FOUR STAGE FILTRATION TECHNOLOGY IS RIGOROUSLY TESTED AND DEVELOPED

**Diatomaceous Ceramic:** Suspended matter and bacteria are retained on the ceramic surface without the use of chemicals

**Anti-Bacterial Silver:** The ceramic permanently incorporates Katadyn silver that works against bacteria growth in the filter

**Carbon Block Core:** Absorbs chlorine, harmful chemicals and organic contaminants that contribute to bad taste and odour

**Zeolite:** Has the capability to remove heavy metals such as lead and mercury

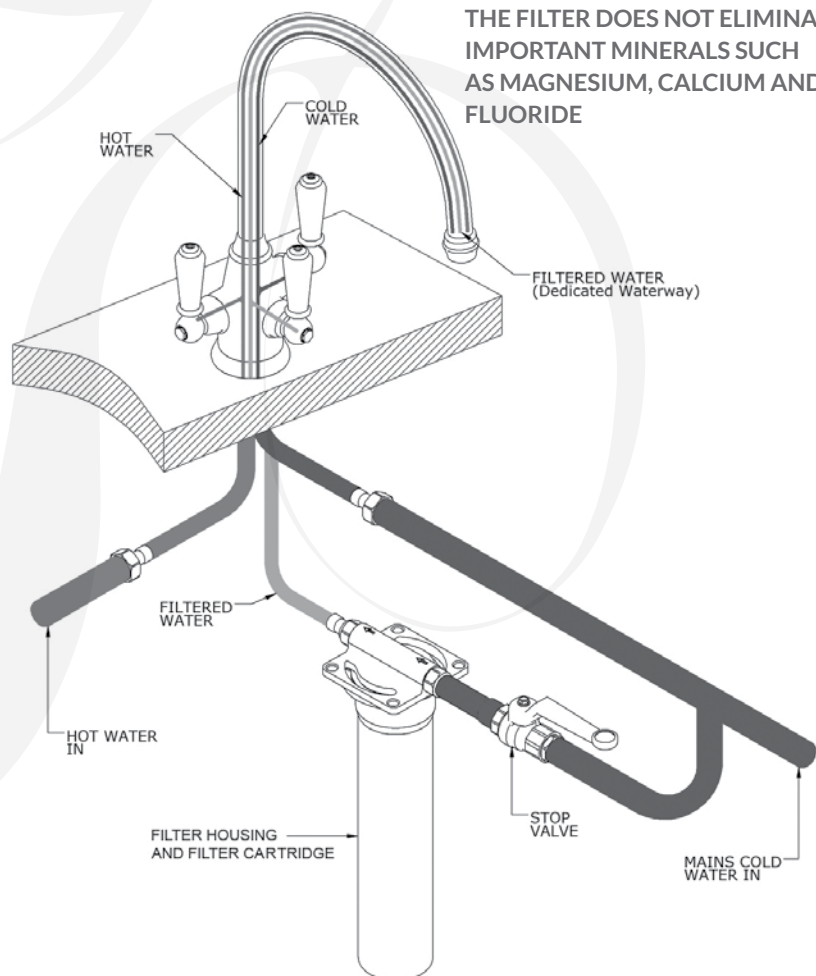

## THE CARTRIDGE SIGNIFICANTLY REDUCES THE FOLLOWING SUBSTANCES:

- Odour and bad taste
- Chlorine
- Organic components such as animal and human waste
- Bacteria such as E.Coli
- Protozoan cysts such as Giardia and Cryptosporidium
- Pesticides and herbicides
- Solvents
- Benzene
- Radon
- Turbidity
- Heavy metals such as lead

## THE FILTER DOES NOT ELIMINATE IMPORTANT MINERALS SUCH AS MAGNESIUM, CALCIUM AND FLUORIDE

THE FILTER HAS BEEN TESTED BY  
 HARVARD UNIVERSITY, USA  
 WAUKESHA COUNTY HEALTH, USA  
 UNIVERSITY OF BASEL, SWITZERLAND

## SPOUT OPTIONS

The Traditional range of kitchen sink mixers offers interchangeable spouts, enabling you to create a look and flow that suits you.

All mixers in the Traditional range (not Mayan) are available with either a Phoenician or Etruscan spout.

**TRADITIONAL COLLECTION  
PHOENICIAN SPOUT**

**TRADITIONAL COLLECTION  
ETRUSCAN SPOUT**

### Single flow spouts

Single flow spouts are ideally installed in systems with equal pressures. Spouts are fitted with an aerator, providing the uniform 'Champagne style' flow as standard.

Minimum recommended installation pressure = 1bar.

A flow straightener is also available on request.

### Bi-Flow spouts

Products with bi-flow spouts are ideally suited to installations with differing hot and cold supply pressures, especially where the hot supply is gravity fed.

Minimum recommended installation pressure = 0.2bar.

If your installation has equal pressures then you may prefer a single flow spout, all our biflow products are available as a single flow, just prefix the product code with the letter A.

### Regulated spouts

If you have high pressures or are concerned about water consumption then you may wish to regulate the flow. All our products are available with regulated single flow spouts just prefix the product code with AR.

Minimum recommended installation pressure = 2bar.

**Brassware finishes and Lever handle options available. See page 79**

# IMPORTANT INFORMATION

---

Perrin & Rowe kitchen products have a minimum recommended installation pressure of 0.2 bar and a maximum recommended installation pressure of 5 bar, with the following exceptions.

## Rinse option/Single flow spouts

Minimum recommended installation pressure = 1 bar (single flow spouts).

Minimum recommended installation pressure = 1.5 bar (taps with rinse).

Maximum recommended installation pressure = 5 bar.

Rinse hose standard length = 1200mm.

Rinse hose not to be connected directly to cold mains; separate from main mixer.

**All rinse options have single flow spouts.**

All measurements shown in this document are in millimetres (mm).

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion.

TCL Manufacturing Ltd Terms and Conditions are available upon request.

# BRASSWARE FINISHES

Perrin & Rowe brassware is available in three standard and five special finishes. Special finishes come with an approximate 8 week lead time, this can be confirmed when placing an order. A care guide is available for all finishes on our website.

## STANDARD FINISHES

**CHROME (CP)**  
A brilliant, silver finish with a hint of blue.

**NICKEL (NI)**  
A shiny finish with a golden glow.

## SPECIAL FINISHES

**ENGLISH BRONZE (BZ)**  
A metallic brown finish with subtle notes of orange and copper.

**GOLD (IG)**  
Plated with 24 carat gold pure yellow in colour, with a natural glow and high shine.

## LIVING FINISHES

The three brass finishes are described as 'living finishes' which means they develop a unique patina as they react with their environment.

**PEWTER (PF)**  
A brushed nickel finish with a blue-grey, matte appearance.

**POLISHED BRASS (BR)**  
A warm finish with coppery undertones.

**SATIN BRASS (SB)**  
A matte finish with strong undertones of yellow ochre.

**AGED BRASS (AB)**  
A darker finish with a tarnished, aged look.

# LEVER HANDLES

The Traditional Collection of Perrin & Rowe kitchen mixers offer a variety of combinations of colours and finishes.

Through the innovative use of materials such as Brass, Porcelain, Corian and Avonite, Perrin & Rowe has made it possible to design a tap to suit your own individual requirements.

Prices shown relate to spares or replacement handles only. It is recommended that these handles are purchased in pairs to ensure a perfect colour match.

**Important Note:** The colours shown are not exact representations.
